Subject: Riverside CIP - quick follow up/macro level

Josh,
Just had quick follow up with Len, AM and Ann.

Bottomline –

1. WSP has a resource-loaded plan with Ann leading the effort; the 'ballpark' figure to complete a CIP similar to Berry's Creek is \$60k.
2. The CIP would be multi-track with interviews, common thread, text, figures/tables PRAP fact sheet all working simultaneously resulting in final product by 19 June 2020. This presume PRAP issue on 19 or 22 Jun 2020.
3. The one item that could affect our effort is if the community interest spikes. The CAG has meeting on 30 Apr 2020; Shereen is scheduling and it's being held remotely. We all agreed it would be key to mention that Riverside is proceeding, note the upcoming activities and dates. That might give us idea of any CAG interest. Ann could work out thoughts with Shereen/you on what to announce/ask during the CAG. Likely low risk on this affecting us but timing is good with CAG next week.

That's about it.

WSP is preparing this overall budget and schedule. Len – I didn't mention but please keep it simple, no fancy schedule needed/excel table with task/start/end fine. 😊

If you are agreeable with that general level of budget, Len will pull this together asap and they will be ready to start immediately.

Len, please correct if I captured above incorrectly.

Regards, Beth
